CHRISTMAS MUSIC

The **Flight Of The Christmas Tree** is jam-packed with holiday tunes, note reading games, warm-up exercises, a rhythm activity, a sight reading activity, a practice tracker, and a certificate of achievement.

Composed in middle C position, the traditional Christmas carols in this book are arranged to match the pedagogical level of mid-primer piano students.

CHRISTMAS MAGIC BOARD GAME

1. 20 coins should be placed in a container beside the game board.
2. To begin, the student places three coins (heads up) over any three squares on the game board. Next, the teacher places three coins (tails up) over any three squares on the game board.
3. Either player rolls a die and then, in the legend, locates the note name that corresponds to the number rolled.
4. The student analyzes the game squares where her coins (heads up) were placed in Step 2. If the note image beneath a coin matches the note name selected in Step 3, she keeps the coin. Any coins that do not match are returned to the container.
5. Step 4 is repeated by the teacher.
6. After all coins are removed from the game board, Steps 2 - 5 are repeated until a player collects 10 coins and wins the game.
