NOTE PRINTING GAME

1. To play today's game the student needs the game board, a pencil, and a die.
2. To begin, the student rolls the die and then locates the note name in the bass C five-finger scale that matches the number rolled.
3. Next, on any staff below the note name located in Step 2 the student draws a note image that matches the note name.
4. The student repeats Steps 2 and 3 until each staff in a column below one note name contains a note image.
5. If the first completed column is above a blue circle, the student wins the game. If the first completed column is above an orange circle, the student loses the game.
6. If the student loses the game she must draw note images on any remaining blank staves. If the student wins the game, the teacher must draw note images on any remaining blank staves.
